

SIX REASONS WHY YOU SHOULD

# BAG YOUR FIREWOOD

## 1 INCREASED MARGINS

Packaged in attractive and convenient bundles, customers are willing to pay more so you make more per unit.

## 2 EYE CATCHING APPEARANCE

With eye-catching colors available, more customers will notice your firewood stand resulting in more sales.

## 3 CONVENIENCE FOR YOUR CUSTOMERS

Bagged firewood is easy to transport. Individual bags at stands allow customers to do the lifting and loading themselves.

## 4 DIFFERENTIATE A VARIETY OF PRODUCTS

Different colors, labels, and bag sizes make it easy to differentiate products such as Cherry, Oak, Mixed Hardwoods, Kindling, and Smoker Chunks.

## 5 NO MORE CONDENSATION OR LOOSE BUNDLES

Bagged firewood does not trap condensation or loosen like stretch and shrink wrap does.

## 6 REDUCE/ ELIMINATE TRANSACTION TIME

Selling bagged firewood reduces delivery time and costs associated with bulk deliveries. That means more time for you to process more firewood!
